EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE CLAIMS

Cancel claims **1-7, 12-22 and 28.**

2. This application is in condition for allowance except for the presence of claims 1-7, 12-22 and 28 to an invention non-elected without traverse. Accordingly, these claims have been cancelled.

3. The following is an examiner's statement of reasons for allowance: Claim 8 is amended to recite "a receiver to receive data of frames of output of an autonomous in vivo imaging device" and claim 23 is amended to recited the step of "receiving data of frames from an autonomous in vivo imaging device". The definition of an autonomous in vivo imaging device is clearly set forth in the specification. As Applicant makes clear on pages 9-11 of the remarks filed October 17, 2005, neither Urbano et al. nor Haskell et al. (both references used to

previously reject claims 8 and 23) disclose an autonomous in-vivo imaging device and/or receiving frames of output from such device. Since no other prior art references of record explicitly teach or fairly suggest, alone or in combination, an autonomous in vivo imaging device, receiver for receiving frames of output from such device and a display device for varying the frame display rate according to a correlation of such frames, claims 8 and 23 are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
